

# Global Experiential Learning Internship Program

## Program Overview

**AperioHub Global Experiential Learning Internship Program** is designed for participants to engage in project-based research, analysis and structured problem-solving across selected business domains. This internship program is delivered virtually and involves collaborating with peers and professionals to develop applied skills through structured project simulations.

Participants may engage on assignments connected to areas such as business strategy, market research, financial insights, digital innovation, or related functional tracks depending on the project availability.

The focus is on learning by doing, applying structured thinking to real-world problems, and contributing meaningfully to the designed project while **engaging remotely in a digital** setup.
